Dear Ms. Felter,

Thank you for including us in your plea for support of your cause. Our tribe suffered the same fate, and we are beginning our quest for re-recognition as well. We do support your cause in principle and pray to our Creator that you will be successful in your efforts.

Our strength may seem small but, if Creator is pleased with our actions and motives, we will prevail. Our tribal council asks that I respond out of respect for your people. May you receive strength and wisdom until your cause is settled.

Sincerely,

SHASTA INDIAN NATION
